Demo Client · DEMO-0013
13 November 2026 · v1.0

Handover note

> Demonstration package built from synthetic data.

Client: Demo Client · **Engagement:** DEMO-0013 · **Final run:** `aa_20261113T113019Z_9ce23d`

1. Open this first

`00_START_HERE` opens with one click in any browser and holds everything below. Nothing has to be installed.

If you are	Start with
The decision maker	One-page summary
The management team	Presentation, with speaker notes
The service lead	Report
The analyst who checks numbers	Workbook (Control panel first)
Whoever wants to explore	Dashboard
Whoever builds or runs the flow	Agent specification and automation pack
Each process owner	Opportunity map
The auditor	Methodology

2. What was handed over

#	Item	File
1	Final report	`01_DemoClient_AIAutomation_Report_v1.0_20261113.pdf`
2	One-page summary (tear sheet)	`02_DemoClient_AIAutomation_Summary_v1.0_20261113.pdf`
3	Results presentation	`03_DemoClient_AIAutomation_Presentation_v1.0_20261113.pptx`
4	Results workbook (all numbers)	`04_DemoClient_AIAutomation_ResultsWorkbook_v1.0_20261113.xlsx`
5	Model documentation (methodology)	`05_DemoClient_AIAutomation_Methodology_v1.0_20261113.pdf`
6	Handover note	`06_DemoClient_AIAutomation_HandoverNote_v1.0_20261113.pdf`
7	Opportunity map (every process, a status and a next step)	`07_DemoClient_AIAutomation_OpportunityMap_v1.0_20261113.xlsx`
8	Agent specification (what it reads, returns and may do)	`08_DemoClient_AIAutomation_AgentSpecification_v1.0_20261113.pdf`
9	Automation pack: n8n workflow, guides for Make, Power	`09_DemoClient_AIAutomation_AutomationPack_v1.0_20261113.zip`

#	Item	File
	Automate and Zapier, prompt, policy, golden set	
10	Interactive dashboard: one HTML file, opens in any browser	`10_DemoClient_AIAutomation_Dashboard_v1.0_20261113.html`
11	Data-quality reports	`Data_Quality/ (open the .html files)`
12	BI exports for Power BI / Looker Studio	`BI_Exports/ (CSV, long format)`

3. Who does what

When	What	Who
This week	Create the API connection on the platform and import the flow	IT
This week	Run the golden set; compare every route with the expected one	Customer service lead
This month	Act on the open go-live tests in the tracker	Action owners
Every month	Label 100 new messages and re-test; review the log	Customer service lead

4. How the files work together

- The **automation pack** installs the agent: import the n8n file or follow the guide for Make, Power Automate or Zapier, then run the golden set before switching on.
- The **opportunity map** is a working list: each process owner sets a status and a next step; the dashboard reads the updated file back.
- The **dashboard** recomputes the business case with your own volumes and costs.
- The **workbook** recalculates: choose a request type in the yellow cell of the Control panel.
- Editing the Excel and PowerPoint files needs Office, or a free tool such as Google Sheets and Slides. Reading them does not: both are inside `00_START_HERE`.

5. What we need for the next run

A fresh sample of labelled messages from the latest month, the pilot or production log, and any change to products, channels, policy or the model.

6. Data and access

All client data will be deleted within 10 business days of the end of the engagement (or retained for the next run as agreed).
